Subject No. 488
Transfer of Civil cases of Heggaddevankote from Nanjangud to Mysore.

Summary of discussion.—In the rainy season, the people of this taluk find it very difficult to go to Nanjangud owing to the rivers Kapila and Bhrigu being in flood. The Civil jurisdiction over this taluk may therefore be transferred from the Nanjangud to the Mysore Munsiff.

Reply of Government.—Will be considered in connection with the general scheme of readjustment of Munsiffs' jurisdiction under disposal.

Subject No. 489
Establishment of workshops in connection with the Mysore Industrial School.

Summary of discussion.—The progress of the Industrial School in Mysore is very slow. Boys taught in large workshops can learn work better, earning higher wages for themselves and putting the Government to no expense. The establishment of a large workshop in connection with the school is necessary, so that the principles taught may be put into practice.

Reply of Government.—The Member making this request, *viz.*, Mr. A Ramanna, may formulate his proposals and submit a draft scheme for the consideration of Government.

Subject No. 490
Octroi duty on, and price of inferior timber sold at the Mysore Woodyard to be paid to the Woodyard Mutsaddi.

Summary of discussion.—To meet the convenience of the poorer classes of the public and to place the sale of inferior timber on a satisfactory footing, purchasers of timber in the Mysore Woodyard may be permitted to make payment of the price and octroi duty at once to the Woodyard Mutsaddi instead of having to pay the former at the Treasury and the latter at the Octroi Cutcherry.

Reply of Government.—This will be referred to the Conservator of Forests.

Subject No. 491
Contractors of public buidilngs and the general public should be treated alike as regards sale of logs in Government Woodyard.

Summary of discussion.—In the matter of purchase of logs in the Government Woodyard, no preferential consideration is fairly due to the contractors of public buildings. If any such contractor and a private individual apply for identical logs the same may be sold to the highest bidder. The contractors are now allowed to select the best of logs, leaving only inferior ones to other purchasers.
